Richard Friedland

I've been involved with Emotional Release work for over 35 years. After having studied with Alec Rubin, President of the International Primal Association and became certified, I have worked giving and receiving this extremely beneficial therapy. I have developed many new innovative techniques that make the whole process easier, even for the beginner.

I've come to regard these feelings sessions as an important and incredible gift to others. I am completely dedicated to devoting my energy into understanding and simplifying this process and to make it readily available to all who want to take advantage of this discovery.

Once you have experienced this process, your inner world, where the truth lives, becomes accessible to you. I am ready and willing to help share and teach everything I know about this invaluable process with anyone who would like to improve their life.
